

253-Foot Span Floated 113 Miles by Engineers

One barge passes under another on Grand Coulee Dam reservoir. "Floating" span, 253 feet long, is section of old Great Northern Railway bridge at Marcus, which is being transported 113 miles to dam site, where steel will be used in building. Truss passes under new railroad bridge at Kettle Falls, which replaced old Marcus crossing. Reservoir made old span useless.

The great horned owl kills and eats skunks, unaffected by the odor. There are 16 varieties of edible fish and shellfish in the United States. Pearl Harbor, Hawaii, the world's largest naval base, was begun in 1901.

Youngster to Draw Draft Serial Cards

Next Monday morning, little Jimmie Watson will draw the first 10 cards of men between 20 and 44 who registered Feb. 16, 17 and 18. Jimmie, four-year-old son of Mrs. Doris Watson, assistant clerk to Selective Service Board No. 280, will thus begin the board's big job of assigning serial numbers by lot to the 8,000 men of this district who responded to the third national "R" day. The youngster will perform his first service for his country at 9 o'clock at 1338 El Prado, Torrance, and the board is expected to take the rest of the day in placing serial numbers on the registration cards.

On March 17 at Washington, D. C., a repetition of the national draft lottery of Oct. 29, 1940, will be held to determine the order in which the registered men will be called for service.

Officials of the local board called attention this week to the fact that they have orders which forbid any Selective Service registrant from enlisting after he has received instruction to report for Army physical examination. The only exceptions to this rule are men with specialist ratings.

The local board also announced that a news report published last week that Dean Dee Cox of Torrance and Frank Orla Hinkley of Lomita had been inducted into the Army "by mistake of the board" in error. "The mistake, board officials declared, was made by Army authorities at Ft. MacArthur who sent the two young men to Ft. Knox, Ky., when they were scheduled to enter Air Corps training. The local board members insisted they were only following orders and that these instructions were well known to the young men and their parents.

Hereafter, whenever a draft registrant is ordered to report for medical examination, he must be prepared to be inducted immediately if he is found physically fit. The examinations are generally given in either Los Angeles or at Ft. MacArthur. A selectee must show good reason, important business or home affairs, to obtain a leave to return home after examination.

Recreation Dept. Offers Diversion for Everyone

In these trying times the Recreation program in our community plays an important role. With added hours of work each day, and a seven-day week, we need some form of diversion, such as the Torrance Recreation department has to offer. Here a trained staff of men and women can help you in selecting a hobby, one that will give you the most complete relaxation from your job, helping to keep you physically and mentally fit.

"We can help you in the conservation program," Director Dale Wiley said today. "In the Recreation center at 2415 Arlington ave. you can learn how to use old felt hats, discarded tooth brush handles, apple boxes, or perhaps there is a broken piece of furniture we can help you to mend. This department is now working hard in hand with the defense program. We request that all Scout troops, Sunday school groups and others phone 621 and tell us when to expect you. We also want to recommend arts and crafts as a means of recreation, for those engaged in work requiring a great deal of physical effort.

"At the city park we still have ample facilities for the public. Why not bring your club, family and friends or Sunday school out for a picnic? Again may we ask you to phone 621 and make reservations in advance to avoid a lot of confusion. "Your health is your front line of defense, and there is no better way of guarding it than by making use of your recreational facilities at the city park," Riley concluded.

Narbonne Student Weds Arcadian

Stealing a march on their friends, who were expecting a wedding some time in the spring, Miss Dorothy Lee, daughter of Mr. and Mrs. M. E. Lee of 1748 260th st., and Ralph Rasmussen, son of Mr. and Mrs. Rasmussen of Arcadia, were married in the Christian church at Yuma Saturday evening. Rev. Byron Brown officiating. The bride was attended by Miss Wanda York of San Diego. She was a student at Narbonne but chose matrimony to finish school. The groom is employed at Lockheed Aircraft and the young couple will make their home in Maywood.

The Navajo Indians believe the earth is flat and that sun, moon and stars revolve around the earth.

12-Hour Vote Period Fixed for City Election

Opening of the 17 precinct polling places for the April 14 municipal election will be delayed one hour, the city council decided Tuesday afternoon that the election centers would be open from 7 a. m. (instead of 6 a. m.) to 7 p. m. Each of the election officials will be paid the customary \$5 for their 12-hour shifts.

A welcome check in the amount of \$1,270.29 was received by the city this week as franchise earnings from the Southern California Edison Company. In answer to the council's request for an investigation of Mrs. Lula A. Kent's complaints about the Torrance Municipal Bus system, Bus Manager Ward suggested that criticisms should be directed to him first rather than "annoy the city council."

He said, in answer to Mrs. Kent's charges that the bus system is now "operating on its wits" and will obtain such conveniences as a Los Angeles terminal waiting room and identifying signs as the patronage warrants. "In reply to the charge that one of the drivers, Alvin K. Hill, was discourteous, Ward presented a letter from the driver giving his side of the matter. The council took no action, ordered Ward's and Hill's letters filed.

A petition signed by 113 Hydril employees asking that Lomita Blvd. between Pennsylvania ave. and Hawthorne Blvd. be improved was received. Councilman James Hitchcock reported that the artery is in bad condition and that repairs have been started.

1939 Crash Damages Granted

Payment by the city of \$26,578 damage claims growing out of the March, 1939, crash of a car over the Point Fermin bluff at the end of Pacific ave. has been ordered by the district court of appeals. Mrs. Fanny M. Rippe, widow of Bud Rippe, driver of the car, was awarded \$5,568. Clarence Comer was awarded \$20,500 for serious injuries and Chris Jones was awarded \$545 for lesser injuries. The accident occurred on a foggy morning when the three men en route to work went over the bluff, falling nearly 100 feet to the rocks below. Lack of barriers at the dangerous spot were grounds for the suit which was appealed by the city of Los Angeles but upheld in the district court. The Rippe work reaction, of Lomita when the fatal accident occurred.

Thomas Guilty of Assaulting Bank Official

Instructed by Judge John Shidler to return a verdict of guilty in the case of Aubrey Thomas, who was charged with assaulting Leland June, assistant cashier of the Bank of America, Jan. 26, a jury of 11 women and one man lost no time in convicting the defendant Wednesday morning. Thomas will be sentenced Saturday morning.

Only four witnesses were examined and Thomas, who conducted his own case and took the stand, failed to enter any defense to the charges, which were originally battery but was reduced to assault by Judge Shidler. The bank official was attacked by Thomas and had three front teeth knocked out when he sought for information concerning the whereabouts of Thomas' 16-year-old brother on a business matter pertaining to the bank. Members of the jury which had no deliberation to make were Lottie H. Merriam, Alice E. Ruppel, Clara A. Conner, Veronica B. Smith, Addie W. Parks, Ethel M. Quiggan, Della B. Page, Maude S. Delinger, Martha B. Hanna, Roxie E. Sleeth, Julia B. Neelands and Thomas A. Mitchell.

LEVANT LECTURE
J. P. Sheridan, a member of the Cairo, Egypt, Rotary Club who has lived in the Near East for more than 24 years, will discuss the strange, romantic lands and peoples of the Levant at the Torrance Rotary Club dinner-meeting tonight.

TURN HIS GAT ON THE GESTAPO... Humphrey Bogart proves a little quicker on the draw than Conrad Veidt, who plays a Gestapo agent in "All Through the Night," which opens tonight at the Grand theatre with "H. M. Pulham, Esquire," starring Robert Young, Ruth Hussey and Hedy Lamarr.

Tract Developers to Build 20 More Homes

Immediate construction of 20 more attractive moderate-priced homes in the Park Knolls tract near the Torrance city park was ordered late last week after S. K. Katz and J. H. Pine, developers of the tract, took out building permits, totalling \$65,250 for the structures. The residences will be erected in the 2400 blocks on Androvo and Cabrillo aves.

Building permits for February totalled \$97,264 as compared with \$39,344 for the same month last year. Total new construction for the first two months of 1942 amounted to \$209,863—more than three times the 1941 total of \$68,319. Permits were issued during the past month for 27 new homes, \$83,800; 24 private garages, \$6,480; 10 new non-residential structures, \$10,054, and 10 alteration and repair jobs, \$6,014.

The permits issued to Katz and Pine for the Park Knoll development were: two five-room frame and stucco houses with double garages at 2412 and 2421 Androvo ave., costing \$3,250 each, and a five-room frame and stucco house with a garage attached at 2408 Androvo ave., \$3,500. Six five- and six-room homes, with double garages, costing \$3,750 on Cabrillo ave., and nine houses costing \$2,250, also in the 2400 block on Cabrillo ave., and one \$3,500 structure on that street.

Other permits issued during the past week went to R. C. Bryson for a six-room frame residence and garage at 2420 Los Codona, WALTERIA, \$2,950; Mr. Munns to reconstruct earthquake damaged auto sales and garage building at 1420 Cabrillo ave., \$2,000, and Clarence Birney for a 200-gallon riveted steel oil tank at 1831 229th st., \$100.

Goodyear Dealer Will Help Curb Tire Theft Wave

The wave of automobile tire thefts has brought the police and every automobile owner face to face with the problem of finding ways and means to combat this thievery and thwart the irreparable losses due to the tire rationing program. Don Miller, local Goodyear dealer, working in cooperation with the Goodyear Tire & Rubber Company, has found what is quite apparently the solution to this perplexing problem.

The plan consists of the actual branding of the car owner's automobile license number on the sidewall of each of his tires, in letters and numerals approximately one-half inch high, to be plainly seen and recognized. This branding is no way harmful to the casings and takes only about 12 minutes to brand all four tires and the spare. "We have just installed the equipment necessary to provide this branding service," Miller concludes, "and we suggest that arrangements be made immediately to have this important work done. Obviously, there will be such a demand by local car owners for the service that it is advisable to make advance reservations to be assured of prompt handling of the work."

There are four towns named Comert in America.

Sons Follow Parents in Service to Nation

Following in the footsteps of their parents, C. B. Benbow, 21, and James Benbow, 20, have enlisted in the Army and left for Wichita Falls, Texas. C. B., who graduated from Narbonne in 1939, has enlisted in the technical division of the Air Corps and James, graduate of 1940, in the mechanical division. Mr. and Mrs. C. A. Benbow of 2242 248th st. both did their bit in World War I. He was a second lieutenant in the Aviation Corps and she enlisted in the Army as a nurse, serving for some months in France. Mrs. Benbow, being a reserve officer in the Army, has had orders to stand by and may be recalled to service at any time.
